

# Invasive species duke it out for Great Lakes domination!

Which Great Lakes invasive species is the worst? Don't miss the Great Lakes Smack Down to find out. Fill out the bracket advancing the species that you think **are the most ecologically destructive to the Great Lakes based on sound scientific principles**. You are also welcome to vote based on personal vendettas, bad feelings and general contempt for a certain species.

## HOW TO GET STARTED:

- Log onto [www.greatlakesecho.org](http://www.greatlakesecho.org) for a copy of the bracket. **The Knight Center for Environmental Journalism room 381 will also have copies.**
- E-mail the bracket to [greatlakesecho@gmail.com](mailto:greatlakesecho@gmail.com) or drop it off at the Knight Center for Environmental Journalism in the **MSU Communication Arts Building room 381.**
- **Turn brackets in before Friday, March 18.**

Round 1 will be introduced **Monday, March 14** on [www.greatlakesecho.org](http://www.greatlakesecho.org), where you can submit your comments and vote for the winners. Make sure to tune in for the rest of the month as the competition heats up.
